Linkedin: <https://www.linkedin.com/in/elainejacinto>

Portfolio: <https://elainejac.github.io/portfolio/>

- Conducted usability tests, heuristic analysis and accessibility testing of existing website, ideate features, reorganized information architecture based on user flow, developed a new interface design including prototyping and wireframing.
- Tools used: XD, InVision

Snooze It App | <https://adobe.ly/3cKC4C>

- Create an app that serves as an alarm that works hand-in-hand with a preferred navigation system in an effort to help users get their optimal amount of sleep while eliminating the worry of hitting traffic and being late to their destination.
- Conducted user research, competitor analysis, ideation, designed prototypes and wireframing, and tested for usability.
- Tools used: XD, InVision, Miro

EXPERIENCE

UX/UI Student

University of California, Irvine, CA

Sep 2019 – Mar 2020

- Create prototypes for designing web and app design interfaces.
- Maintain understanding of current web technology practices through continuing education, reading, or participation in professional workshop groups.
- Design, build, or maintain web sites, using scripting languages, content creation tools, management tools, and digital media.
- Analyze user needs to determine technical requirements.
- Develop web site maps, application models, style guides, or page templates that meet project goals, user needs, or industry standards.

Manager, Environmental Health & Safety Department and Solutions Department

Kaiser Permanente, Chino Hills, CA

May 2016 – Present

- Inspect and evaluate workplace environments, equipment, and practices, in order to manage hazards and ensure compliance with safety standards and government regulations.
- Recommend measures to help protect workers from potentially hazardous processes or materials.
- Collaborate with staff and management to institute control and remedial measures.
- Investigate incidents to identify causes and determine solutions to prevent recurrence.
- Conduct safety training per regulatory requirements, and demonstrate safe work practices.
- Maintain and update safety policies & procedures as well as emergency response plans.
- Maintain inventories of hazardous materials and wastes, using tracking systems to ensure that materials are managed properly.

Safety Coordinator

Kaiser Permanente, Irvine, CA

Jul 2007 – May 2016
